The US & Trump

Dates: 7 nights

June 2019, Saturday 8th to Saturday 15th June

Detroit, Michigan and Washington, D.C.

Following the success of our 2018 NYC and DC tour we return to the States to track Trump's progress. Despite the controversy surrounding him his support among his base remains resolute. How does he do it?

We travel to Michigan, a swing state that helped win him the presidency. Detroit and cities like it will be crucial for 2020. Is Trump's brand still working for them? From there we go to Washington DC and examine the efforts to check and possibly impeach the President. First-rate access to some of Washington's leading movers and shakers.

Price: £4400.00

Single Supplement: £500.00

Like all our tours the itinerary is focused on current affairs. Events on the ground may change and the final schedule may be adjusted accordingly.

“The highlight of the tour was the Trump rally, because it overturned all preconceptions about those who would vote for Trump. We should have realised then that his appeal was so wide.” SR, US Elections 2016

“A sociological and political eye opener of a tour.” VH, US Elections 2016

“The speakers were a particular feature of this tour, and clearly much thought and effort had been put into selecting and engaging people from a variety of backgrounds. I doubt if this could have been improved upon and it was a privilege to meet them all.” CB, US Elections 2016

“Everyone promised on the programme showed up; and everyone, without exception, was fascinating. Some of what I heard reinforced my thinking, some of what I heard challenged my beliefs, and some things were completely new or left field.” HG, Northern Ireland
