Alone in Japan

with Tom Feiling

Hiroshima, Mitarai, Onomichi & Tokyo

21 – 29 March 2027 | 9 Nights

Cost: £TBC

Our 9-day tour – led by author and reporter Tom Feiling – takes us through the heart of the Japanese dilemma: from remote rural communities to the mega-city of Tokyo. From abandoned communities to high-tech factories employing just robots, we leave no stone unturned as we get to grips with modern Japan.

We'll be immersing ourselves in the social and economic changes driving Japan's shrinking population, but also looking at broader political issues. At the same time, the country – under the helm of its first female prime minister – has to get to grips with a resurgent China and an unstable ally across the Pacific. A packed and gripping itinerary.
